

Future Directions - Skills for Care Accolades Winner Best employer of over 250 staff 2020

“Our induction is a 5-

more experienced workers.

The managers at Future Directions are brilliant, they know just as much about the people we support as the support staff do. The people we support are at the forefront of the service all the time.

We have a 12-month probation period, with reviews also at the 4 and 10-month periods throughout this process. Despite the fact that I have still not completed my probation, I have already been supported to undertake management development. It makes me feel good that they have seen my potential.”
